## 5W-20 ECO-B

Fully synthetic, fuel saving engine oil for many Ford vehicles

Product code: U236

### Product Description:

5W-20 ECO-B provides significant fuel saving benefits to the motorist by virtue of its low viscosity and low friction technology while maintaining maximum engine protection and component durability. 5W-20 ECO-B exhibits outstanding thermal and oxidative stability and excellent protection against corrosion and black sludge.

### Benefits:

- Designed specifically for Ford EcoBoost engines
- Provides high performance with maximum fuel efficiency
- Delivers outstanding wear protection
- Can replace Ford M2C925-B & M2C913-C specification oils in petrol engines

### Applications:

5W-20 ECO-B has been formulated for use in Ford 1.0L 3 cylinder EcoBoost petrol engines and is also the preferred choice for use in 1.6L and 2.0L EcoBoost engines. In addition, it is strongly recommended for use in petrol engines for which the specifications WSS-M2C913-B, WSS-M2C913-C or WSS-M2C925-B were originally prescribed. It can also be used where an SAE 5W-20 meeting the following ACEA or API specifications is called for.

### Product Specification:

ACEA	C5
API	SN/CF
Ford	WSS-M2C948-B, WSS-M2C925-B

### Typical Test Data:

Kinematic Viscosity @ 100°C (cSt)	7.95
Kinematic Viscosity @ 40°C (cSt)	42.5
Viscosity Index	161
Flash Point (Closed) (°C)	200
TBN (mg KOH/g)	8.1
Sulphated Ash (% wt)	0.78
Pour Point (°C)	-36
